   - Graduate students
   - Interns
   - Fellows
2. May be involved in Psychology Training Program and Training Committee.
3. Provides leadership guidance and consultation to staffs of units to which assigned.
4. May be involved in the training of medical students, medical and psychiatric residents, nursing students, fellows and other graduate or post-graduate trainees, as appropriate.
5. Serves as a consultant to other medical center staff and trainees and assists in their formulation of the psychological characteristics and appropriate treatment expectations regarding their patients.

B. Research/Program Evaluation (5% of time)
1. Is responsible for timely completion of all clinical charting and documentation required by the Medical Center or healthcare system, as appropriate.
2. May present outcome data and research at VA and regional or national scientific or professional meetings, as appropriate.
3. Assists in preparation of RFPs and grant proposals, as assigned.

C. Other Significant Responsibilities (10% of time)
1. Serves on Medical Center or Healthcare System, VISN, and/or National VA committees or task forces.
2. Represents Psychology on decision-making committees at the Medical Center or Healthcare System.
3. Actively participates in leadership roles on local, state, and national professional organizations.
4. Represents the Medical Center or Healthcare System at professional/program community group/events and committees.

III. Supervisory Controls:
This psychologist reports administratively and clinically to the Chief, Psychology Service, at the North Florida/South Georgia Veterans Health System. In addition, this psychologist may report programmatically to the Medical Director for the program(s) to which s/he is assigned.

IV. Qualifications:

V. Customer Service
Meets the needs of customers while supporting the Medical Center and Service missions. Consistently communicates and treats customers (patients, visitors, volunteers, and all Medical Center staff) in a courteous, tactful, and respectful manner. Provides the customer with consistent information according to established policies and procedures. Handles conflict and problems in dealing with the customer constructively and appropriately.

VI. Age, Developmental, & Cultural Needs of Patients
The focus of this position is on the provision of psychological services to veterans enrolled at the North Florida/South Georgia Veterans Health System. These veterans are typically between 18 and 70 years of age. This position requires the incumbent to possess or develop an understanding of the particular needs of these types of patients. Sensitivity to the special needs of all patients in respect to age, developmental requirements, and culturally related factors must be consistently
achieved.

VII. Computer Security:

Protects printed and electronic files containing sensitive data in accordance with the provisions of the Privacy Act of 1974 and other applicable laws, Federal regulations, VA statutes and policy, and VHA policy. Protects the data from unauthorized release or from loss, alteration, or unauthorized deletion. Follows applicable regulations and instructions regarding access to computerized files, release of access codes, etc. Uses word processing software to execute several office automation functions such as storing and retrieving electronic documents and files; activating printers; inserting and deleting text; formatting letters, reports, and memoranda; and transmitting and receiving e-mail. Uses the Veterans Health Information and Technology Architecture (VistA) to access information in the Medical Center computer system.
